

CARPET TILE

What are carpet tiles?

Carpet tiles are a type of flooring that can be used as an alternative to the more commonly used broadloom carpet. They provide all the warmth and underfoot comfort you'd expect from carpet, but are available in practical module sizes. Carpet tiles come in a selection of sizes, patterns and materials – but all Aries Imex carpet tiles are modular and work together.

LOOK BOTH WAYS

Look Both Ways for design inspiration. Playful patterns and urban textures blend together in a series of striking combinations. Concrete and confetti. Heavy and light. Plush and flat. Carpet and LVT. Every mix is a match.

Look Both Ways

Look Both Ways LVT and carpet tile marry purpose and function to create landscapes that perform and delight in infinite ways. Designed as part of our modular system, all our tiles fit together without transition strips. Effortless installation in endless combinations. It's beauty and innovation united. Celebrate the mix!

Carbon Meutral Floors

Look Both Ways Collection mixes pattern and texture for truly unique flooring designs, without the footprint. Like all our products, globally, it's carbon neutral, so you can create +Positive spacesTM and make an impact in more ways than one. Join us in creating a climate fit for life. #Climate TakeBack
